

# ESAA Combined Events Score Tables - April 2007

## Scoring Tables

These tables contain scores for all the events which form part of the ESAA Combined Events. They are the same as the IAAF tables for those events which are IAAF events, but have extra special tables designed specifically for those events which are not covered by the IAAF tables.

## Tables for different timekeeping methods

There are two forms of timekeeping:

- Electronic Timing - timed using photo-finish equipment and producing times to 100th second.
- Hand Timing (or Manual Timing) - timed using stopwatches and producing times to 10th second

Both systems are acceptable, but a mixture of the two systems in the same competition is not permitted.

The tables are compiled differently which reflects the accuracy obtainable by the two systems. Separate tables exist for events below 400m in distance.

**YOU MUST ENSURE THAT YOU USE THE CORRECT TABLE APPROPRIATE TO THE TIMING METHOD**

(note that separate hand timekeeping tables follow the corresponding tables for electronic timing).

When using hand timing all times shown on stopwatches must be **ROUNDED UP** to the next 10th second:

eg:

- 13.01 should be recorded as 13.1
- 13.45 should be recorded as 13.5
- 13.99 should be recorded as 14.0
- 13.40 should be recorded as 13.4

## Looking up scores

For track events, where a time is not exactly shown in the table, the score must be looked up from the next **SLOWER** time, that is, the times shown for a given number of points **MUST** have been equalled or bettered:

eg. For boys 800m

- a time of 2:05.05 gives 682 points in the table
- a time of 2:05.11 gives 681 points in the table
- therefore, a time of 2:05:06 gives 681 points

For field events, where a distance/height is not exactly shown in the table, the score must be looked up from the next **LOWER** distance/time, that is, the distance shown for a given number of points **MUST** have been equalled or bettered:

eg. For Girls Javelin

- a distance of 46.09 gives 785 points
- a distance of 46.04 gives 784 points
- therefore a distance of 46.08 gives 784 points
